

SPECIFICATIONS

Operating system	RTS
Sensors	Electrochemical sensor
Measurement mode	Active and passive
Measuring range	0-4.5mg/L BrAC
Accuracy	± 0.02 mg/L at 0.4 mg/L
Calibration time	12 months / 1 time
Inspection reminder	Have
Language	English, Vietnamese
Screen	4.5 inches
Memory	150,000
Printer	Integrated thermal printer
Wireless connection	Wifi, Bluetooth / 4G (optional)
GPS	Integration

Flash	There are 2 flash lights to support lighting
Camera	8MP
Boot time	Under 5 seconds
Time blows	4 seconds
Response time	2-3 seconds
Recovery time	3 seconds
Power supply	Lithium-ion 3.7V/3600mAh
Battery Life	Work continuously for at least 8 hours after fully charging
Storage conditions	-20°C to +70°C. Humidity: 30 to 90% RH
Operating temperature	-20°C to +45 °C
Download data	Connect to PC via USB port
Size	208*78*37 mm
Weight	360g including battery

EGB39

Law Enforcement Breathalyzer Alcohol Tester

Features:

Law Enforcement Breathalyzer Alcohol Tester EGB39 uses an electrochemical sensor for high accuracy. The device has the ability to self-check the cleanliness of the air flow, automatically blow out the remaining moisture and alcohol in the device after each measurement to ensure the next measurement has the highest accuracy and the fastest recovery time. With 4.5-inch touch screen makes it easy to control the device. Its memory stores up to 150,000 measurement results with full information about the tests. The measurement time is fast, each measurement takes only about 3 seconds. The system automatically reminds you to calibrate the device after 12 months. The device integrates GPS positioning, thermal printer, uses a 3.7V/3600mAh Lithium-ion rechargeable battery and connects USB to the computer to download test results.

-  Advanced electrochemical sensors
-  Integrated instant printer
-  Enter alphanumeric data
-  Integrated 8MP camera with IR
-  Check the air when turned on
-  Sound reminder
-  Integrated O2 measurement modes: active and passive
-  Calibration reminder
-  Integrated GPS positioning
-  Transmit data to the center (choose more)
-  4.5 inch touch screen.
-  3600Ah high capacity battery
